Govee LED Strip Light M1

Safety Instructions

Read and follow all the safety instructions:

- Use the product with the provided power adapter only.
- Be cautious of static electricity during installation and usage. Keep the product away from sharp objects or strong corrosive chemicals.
- Remove nails, metal, or other conductive objects from the installation surface before attaching the strip light, as it may cause short-circuiting.
- Do not install the strip light near any heat sources.
- Do not allow children to install the strip light alone.
- Avoid installing the strip light near potentially dangerous sources (e.g., candles, liquid-filled objects).
- Unroll the strip light before powering on.
- Please turn off the power and unplug the adapter when the strip light will not be used for a long time.
- The recommended working temperature is between 0-40°C.
- The storage temperature should be between -20-60°C.
- Do not stick the strip light to glass surface.
- This product cannot be cut.

Introduction

Thanks for choosing Govee LED Strip Light M1. The 2m RGBIC LED strip adopts the latest 4-in-1 RGBW light beads and RGBIC+ technology. Combining with 60 lights/m light bead density and independent control of the color of each segment, it brings you richer color choices and higher brightness that can provide you with entirely new light and color experience. When connected with Govee Home App, you can adjust its colors, brightness, and scene modes to your liking. It also supports voice assistants such as Alexa and Google Assistant.

Control Box Function Description

Power-on Test

Before You Install

1. Unpack the box and check all items included.
 2. Power on the strip light and check whether it lights up.
- Caution:** Do Not power on before spreading the strip light.

Installing Steps

Caution: Do not connect the power supply while installing and connecting the strip light except in step 5.

1. Clean the wall surface to make it free of dust particles.

2. Estimate the positions of the control box and the power socket and make sure the strip light is long enough. Tear off the glue on the rear of the control box and stick it to the wall surface. For a more convenient installation, please do not connect the control box with the adapter in this step.

3. Please ensure the strip light is firmly connected with the control box.

4. Tear off the glue on the rear of the strip light and the connector. Stick the strip light onto the wall surface and press hard to make sure it is glued firmly.

5. When it is necessary to bend, please try to avoid electronic components like light beads and pads on the strip light, so as not to damage the strip light.

Recommended Tip: Try to bend with a bigger radius to protect the strip light and the electronic components on it.

False Demonstration:

Recommended Tip: Try not to bend at electronic components like light beads, bonding pad to avoid short-circuiting.

False Demonstration:

6. Connect the adapter with the control box and plug it into the power socket.

Recommended Tip:

1. To get better experience of the music mode, it is recommended to keep the control box close to the sound source.
2. To stick the strip light firmly, please use the provided mounting bracket fixing clips at the head/end and the bending corners of the light.

Pairing Your Device with Govee Home App

What You Need

- A Wi-Fi router supporting the 2.4GHz and 802.11 b/g/n bands. 5GHz is not supported.
- A smartphone or tablet running iOS 8.0 (or above) or Android 4.3 (or above).

Pairing Instructions

- Download Govee Home App from the App Store (iOS devices) or Google Play (Android devices).
- Turn on the Bluetooth on your smartphone.
- Open the app, tap the "+" icon in the top right corner and search for "H61E0".
- Tap the device icon and follow the on-screen instructions to complete pairing.

Controlling the Device with Your Voice

- a. Open Govee Home App, then tap the device icon to enter details page.
- b. Tap the settings icon in the top right corner.
- c. Select “Using Guidance” and follow the on-screen instructions to control the device by using your voice.

Troubleshooting

- a. The strip light does not work/is malfunctioning:
 - Check if the adapter used is the one provided.
 - Power the strip light off then on. Make sure the adapter and the control box have been powered on.
 - Long press and hold the power button on the control box and quickly press the middle button four times to restore factory settings.
- b. The strip light does not display the full selected color/Some light beads do not light up:
 - Please contact Govee Support Team.
- c. Cannot connect to Govee Home App:
 - Do not skip Bluetooth connection in the app.
 - Ensure Bluetooth on your smartphone has been turned on.
 - Your smartphone may be incompatible with Govee Home App. Try using a different smartphone.
 - Power the strip light and your smartphone Bluetooth off then on, then try again.
 - Please ensure your smartphone is within 1m/3.28ft of the strip light when connecting.
 - Clear any obstructions that are between the strip light and your smartphone.

d. Cannot connect to Wi-Fi.

- Do not skip the Wi-Fi connecting steps in the app.
- 5GHz network is not supported. Please set the router to 2.4GHz and then reset it.
- Connect your smartphone to Wi-Fi and check whether the network works well.
- Make sure that you have entered the correct Wi-Fi name and password.
- Change your Wi-Fi password to a brief one. 8 numbers and letters are suggested.
- Connect your smartphone hotspot to the strip lights and check whether the router works with the strip lights.

e. Cannot connect to Alexa.

- Unplug every connective part of the strip lights then firmly reconnect them.
- Reset your smartphone Wi-Fi.
- Unplug the adapter port then re-plug it.
